

HUNTER®

We Go The Distance

# Welcome to A Whole New World of Hunter Marine!

## **Our Quality Begins With Innovative Design.**

Many of Hunter's legendary sailboat design and manufacturing innovations have become industry standards and benchmarks, ushering in a whole new world in product quality for the global sailing community. Some key innovations credited to Hunter include the traveler's arch that guides the end of the boom safely up and away from the deck; sail plans that allow each model to be sailed single-handedly; walk-through transoms that add to the safety and comfort of the entire crew; and the B & R rig which eliminates the need for a backstay allowing for a more efficient mainsail configuration; among numerous others.

## **Our Quality Runs Much More Than Skin Deep.**

Much of Hunter's competitive design distinctions aren't easily discernible, but upon closer inspection, provide significant quality advantages for the Hunter owner. Hunter's structural grid and interior bulkhead design are bonded into place, complemented by Kevlar-reinforced hulls, for top-notch structural strength and integrity. All hull-to-deck joints are through-bolted and heavily sealed, adding to the overall product performance, strength and durability. And, the manufacturing process itself utilizes state-of-the-art, sophisticated computer-controlled precision modular construction to ensure the most precise fit and finish possible.

## **Our Quality is Reflected in the Company We Keep.**

Believing that quality is the true sum of all the parts, Hunter's no-compromise approach to manufacturing encompasses a highly selective criteria process to its exclusive vendor selection. Only the best and most reliable and reputable partners are integrated into the Hunter sailboat package, to maximize the long-term investment and quality return for Hunter's valued customers. Trusted brands like Harken®, Bose®, Lewmar®, Microban®, Sharp®, RayMarine®, MaxGuard®, Corian®, Mars lead keels, Selden®, and others lead the pack and are an integral part of Hunter's enduring success.

As part of The Luhrs Marine Group, an employee-ownership company, Hunter and its highly committed team of designers, engineers and skilled craftsmen, sets the pace in sailboat innovation, design and quality, offering a whole new world in value for today's well educated and truly discriminating owner.

46

# Hunter's 46: A Commitment to Owner Satisfaction

Last year, Hunter incorporated more than 20 enhancements into its 46 – all of them a result of customer feedback. While the proven hull, sail plan and deck remain virtually intact, the design team focused on improving the living areas and reducing weight. Owners choose from the standard three-cabin, four-cabin or work room/office layout, all featuring the special “LE” value package that includes in-mast furling with electric winch, air conditioning or leather upholstery, Raymarine® electronics, three-burner stove and quiet-flush heads. Whether you spend a night or a year at sea, the Hunter 46 delivers a most rewarding ownership experience.

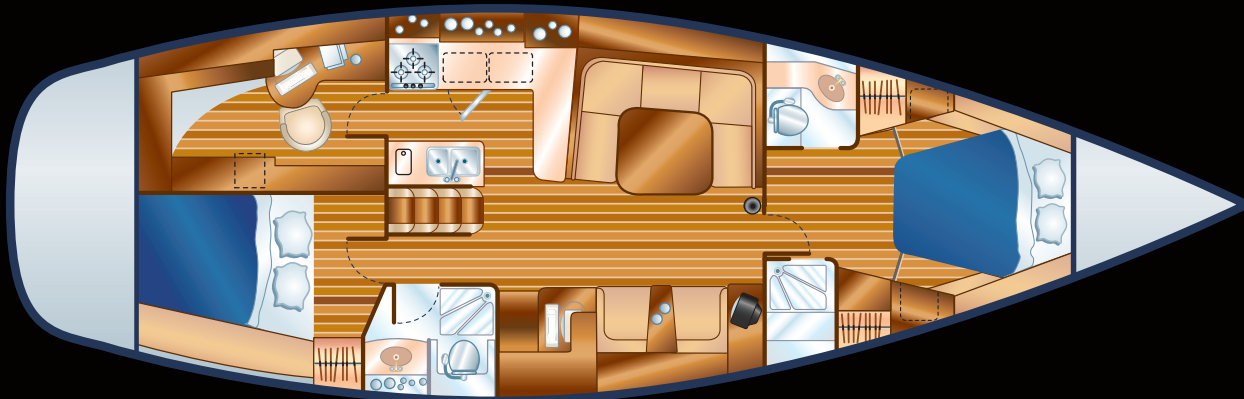

## Key Highlights

- 1 The spectacular salon provides ample room for entertaining and dining.
- 2 An enormous dual-opening refrigerator and freezer are central to the U-shaped galley. The island sink makes clean-up a snap.
- 3 The forward owner's stateroom features an island queen berth with headboard shelving and twin reading lights.
- 4 Additional staterooms provide plenty of storage and ambient lighting for the finest in relaxation and comfort.

## Hunter's new 45 CC: A Breakthrough of Grand Proportions

The brand new 45 CC is a "breakthrough" boat that reinforces Hunter's domination of the center cockpit cruising market. It combines all the comforts of a center cockpit cruiser with an exciting European look, surprising performance and great value in a boat that is long-range cruising capable. The 45 CC includes multiple ease of sailing features that have become Hunter trademarks, such as the backstayless B&R rig and cockpit traveler arch. Plus, its sleek lines, wrap-around windshield and low profile make the 45 CC a great looking boat!

The low profile cabin trunk continues the sleek style while hiding the generous depth and volume of the center cockpit.

At every point of the wind, the Hunter 45 CC is responsive and easily managed short-handed or with a full complement of crew.

With all lines aft and a stainless steel arch to mount the traveler on, this rig is safe in practically any sea condition.

# Amazing Accommodations Await

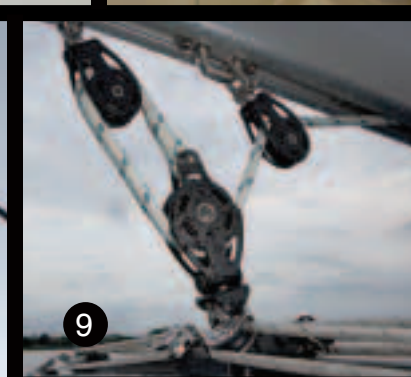

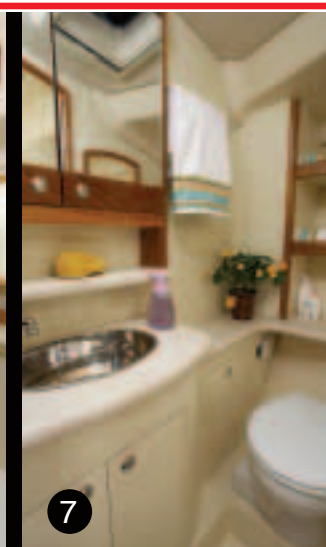

The focal point of a center cockpit cruiser is always the aft master suite, and the 45 CC delivers a spectacular stateroom with an abundant 6'5" headroom. This cabin pampers its guests with an en suite head, a queen island berth with innerspring mattress, twin nightstands, a moveable dresser, a vanity table with mirror, two cedar-lined hanging lockers and a settee to port. A gourmet galley, full navigation station, forward VIP stateroom, second head and airy salon fill out the remarkable floor plan.

# Key Features

- 1 The salon features 6'11" headroom, glossy Everwear® flooring and a convertible dinette with a stowable bench seat.
- 2 A fully-equipped galley exceeds the expectations of a demanding crew during extended voyages.
- 3 With a full complement of electronics, the navigation center also can be tied to the flat-panel TV in the salon for crew briefings.
- 4 The forward V-berth serves as a guest stateroom with connecting guest head (7).
- 5 The amazingly spacious owner's stateroom has a private head (6) and plenty of storage for long-range cruising.

- 8 The B&R rig eliminates the backstay (shown with optional in-mast furling).
- 9 Harken® hardware is utilized throughout, including the traveler arch.
- 10 The folding Lewmar® wheel makes the already spacious cockpit feel even bigger.
- 11 All halyards and running rigging are well organized and lead back to the cockpit.

Deck Salon Version

# The Hunter 44 Series: Have It Your Way!

Hunter caters to your lifestyle! Choose from the Hunter 44 Aft Cockpit (AC) or the Hunter 44 Deck Salon (DS), each offering spacious accommodations generally seen only on much larger sailing vessels. The Glenn Henderson-designed hull sports a unique “bow hollow” at the stern – creating a longer waterline for increased lift and speed. The underbody aft also has a stern reflect for a flatter exit, resulting in enhanced stability and reduced wake characteristics. Your choice of a fin or a shoal keel allows you to customize your sailing experience even more.

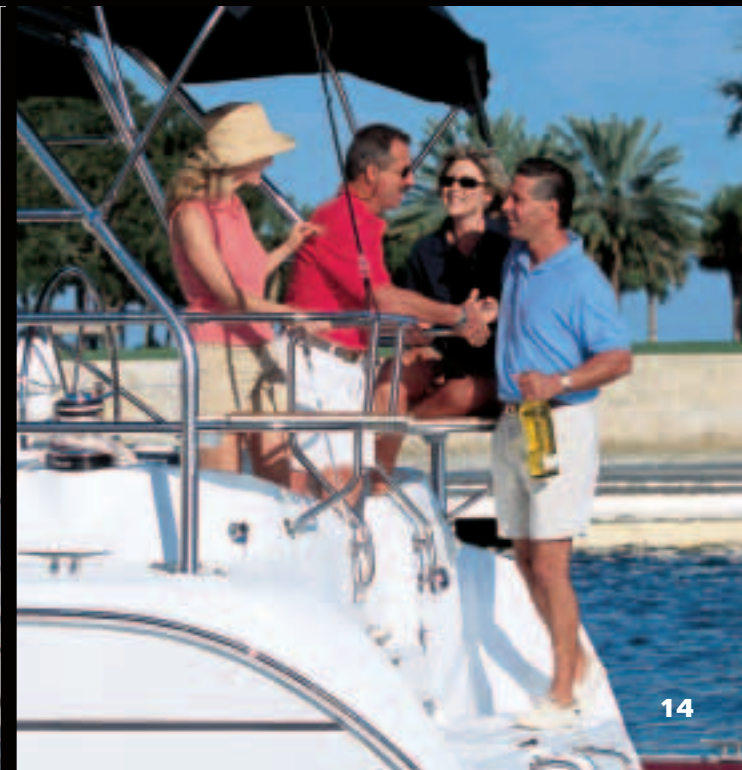

Abundant cockpit seating makes cruising and entertaining truly comfortable aboard either of the Hunter 44 models.

The innovative cockpit arch provides a safe place for the traveler and makes a perfect mounting point for a bimini.

The walk-through transom allows for easy boarding and fast line handling.

Aft Cockpit Version

## Luxury Living Is Yours

Both the 44 AC and 44 DS offer the same elegant and extremely comfortable living space, with the key difference between the models being the expanded lighting, panoramic views and increased headroom afforded by the raised roofline of the deck salon version. Both yachts feature swing-out companionway doors to the interior, upholstered salon settees and a high-gloss dinette table big enough to serve the whole crew. A stainless steel refrigerator/freezer highlights the galley. A master stateroom with queen berth, forward guest cabin with V-berth and two separate heads round out this inviting interior.

## Key Highlights

- 1 The aft master suite has hanging lockers and deep drawers for extended cruising.
- 2 The galley has dual stainless steel sinks, a clever slide-out pantry and a custom backsplash.
- 3 The welcoming guest cabin forward boasts a double V-berth and stowage.
- 4 Swing-out doors allow for easy access into the salon. An extensive navigation station and convenient head lie to starboard, while there is room portside to entertain the entire crew.

- 5 The forward guest stateroom has a private head with shower.
- 6 The raised deck salon brings light and ventilation into the boat's interior.
- 7 Smartly located rope clutches, self-tailing winches and line stowage keep the 44's cockpit clear and safe.
- 8 Just forward of the master stateroom, a second head has dual entrances and a shower.

Deck Salon Version

## The Hunter 41 Series: Discover Easygoing Sailing

Whether you choose the Hunter 41 Aft Cockpit (AC) or the 41 Deck Salon (DS), be prepared for exceptional sailing ease and performance – with your choice of sail plans complemented by superior exterior safety features. Strategic rigging placement keeps the deck clean and uncluttered, while the standard cockpit arch positions the traveler up and out of the way while also providing bimini, stereo speaker and overhead lighting connections. The 41 DS version offers more panoramic views and interior illumination, thanks to the larger, elevated windows.

Classic beauty. Innovative features. Entertaining space ... it's all here to enjoy on the 41.

The design of the Hunter 41 makes full days of sailing a joy. Ease into port at the end of the journey relaxed and comfortable.

The stainless steel cockpit arch keeps the traveler clear of the cockpit, adding safety and ease of handling.

## A Lifestyle of Luxury

The popular Hunter 41 AC and 41 DS continue a timeless tradition of superb interior design, featuring an elegant salon, high-gloss table and custom window treatments, plus zoned overhead lighting. The galley features a stainless steel refrigerator/freezer cleverly housed beneath the Corian® countertop, along with a pantry and custom backsplash. The aft master suite with queen berth offers drawer storage, a vanity and entry to the head. The forward VIP stateroom includes a double berth, vanity, storage and private head with shower. An optional three-cabin version is also available.

## Key Highlights

- 1 The aft master suite boasts a queen berth, loads of light and abundant storage.
- 2 The forward guest stateroom features a double berth plus private head and shower.
- 3 A stainless steel refrigerator/freezer accompanies dual sinks and a convenient pantry in this wide-open galley.
- 4 The spacious salon provides cushioned seating for six, with a convertible dinette for additional sleeping space.

- 5 Sturdy cam cleats make light work of line handling.
- 6 Rope clutches are conveniently located within easy reach of the cockpit.
- 7 Anodized aluminum blocks are just one of the many features that make Hunter the value leader.
- 8 A dual-entrance head with separate shower stall serves the master stateroom.

38

## Hunter's 38: Performance Cruising in Comfort

The Hunter 38 was designed as an exceptionally comfortable cruiser, yet one that offers outstanding performance and easy handling. The sail plan features a large roach mainsail with flaking system and an anodized B&R double spreader fractional rig with struts on a conventional mast, or the easy-to-sail Selden® furling system. Coupled with either sail plan, the new stainless steel rudder design delivers exceptional power that is more aerodynamically efficient and responsive when under way.

With its 12'11" beam, the Hunter 38's cockpit is especially spacious, ideal for entertaining.

Flexiteek®, an easy-care PVC composite, is used in the cockpit sole to minimize maintenance while maximizing durability and aesthetics.

A heavy-duty stainless steel bowrail promotes safety.

## Living Large and Easy

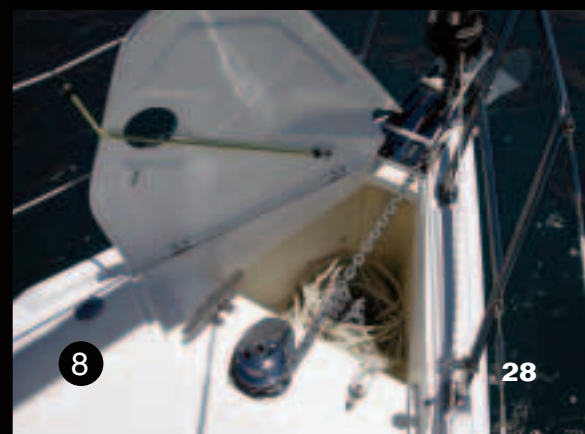

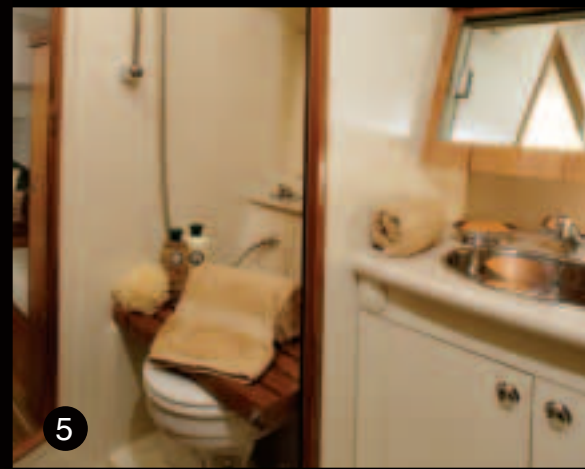

Interior comfort reigns supreme in the Hunter 38, thanks to the dedicated effort of a talented team of industrial interior designers and stylists. The feeling of spaciousness is achieved by the generous 6'6" tall cabin ceiling framed in solid teak, which is balanced by an Everwear® laminate teak-and-holly sole. An extra large salon, master stateroom with en suite head, guest stateroom with V-berth, full-service galley and dedicated navigation station all work together to create a highly functional interior living environment.

## Key Highlights

- 1 The aft master stateroom is both wide and comfortable, with tremendous storage space.
- 2 A Corian® countertop, dual stainless steel sinks, a two-burner stove, convection and microwave ovens, plus generous storage, highlight the galley.
- 3 The main salon features a high-gloss dining table surrounded by designer-style settees that convert to a double berth.
- 4 A forward V-berth suite sports twin cedar-lined hanging lockers with shelves.

- 5 The head is accessed from either the master stateroom or the companionway, and offers a stand-up shower and vanity.
- 6 The six-spoke, folding wheel makes moving about the cockpit a breeze.
- 7 A hot/cold freshwater shower is located on deck near the swim platform.
- 8 The deep anchor locker is ideal for storing gear and ground tackle.

## The Hunter 36: Design Innovation Brought to Life

Borrowing heavily from the ideas of Hunter owners, dealers and prospective customers, the popular 36 represents the end collaboration of enthusiast feedback, brought to life by the hands and minds of Hunter engineers. The extra wide beam spans nearly the entire length of the boat to maximize both topside and interior accommodations. A large sail locker easily stores gear, while the generously proportioned cockpit features a Lewmar® steering system, fold-up tables and plenty of room for relaxation.

The standard stainless steel cockpit arch keeps everything up and out of the way.

Whether alone or with a crew, the 36 makes cruising a pleasure.

The protective bimini top is a favorite feature for cruisers.

## High Style Below Deck

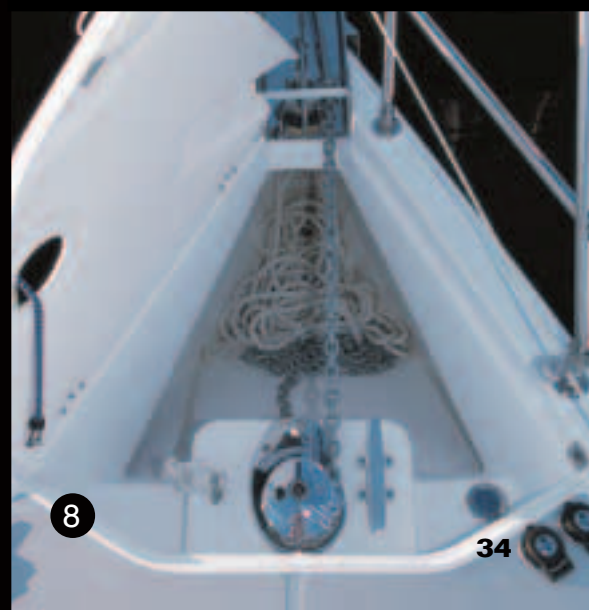

As you step below, prepare to enter a richly-appointed interior befitting a semi-custom yacht. The salon is outfitted with designer-style upholstered settees that surround a solid wood dining table, embraced by handsome cherry walls and Everwear® laminate teak-and-holly soles. The user-friendly galley offers it all, including dinnerware. Two private staterooms afford truly deluxe sleeping accommodations for captain and crew, while the separate head compartment with shower is sure to please all parties.

## Key Highlights

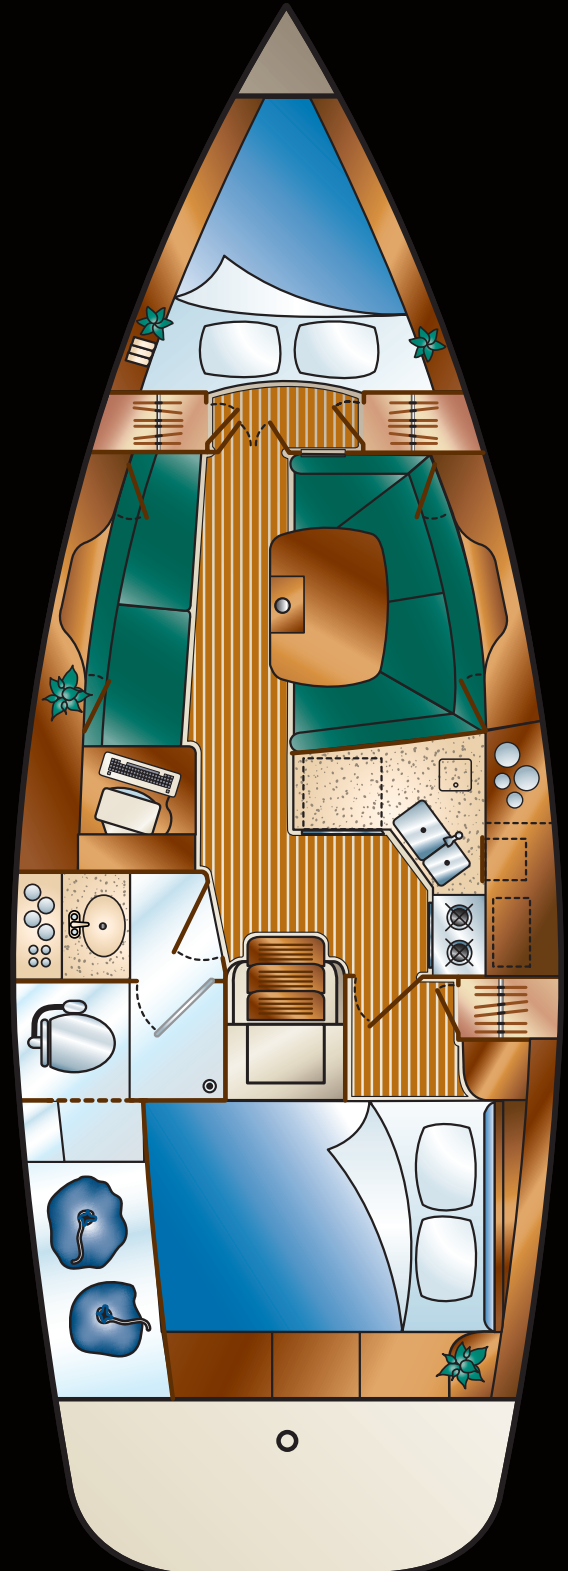

- 1 The aft master stateroom is wide and spacious due to the generous beam.
- 2 Dual sinks, a two-burner stove, a recessed trash bin and plenty of storage outfit a very capable galley.
- 3 Abundant light and soothing tones make the guest cabin inviting.
- 4 The spacious salon boasts tremendous seating room and superb views.

- 5 The console-style pedestal supports a fold-out table that makes the cockpit more versatile both when sailing and at port.
- 6 A separate shower stall rests beside the vanity and sink in the head compartment.
- 7 Self-tailing winches make sailing easier without jamming lines.
- 8 An oversize anchor locker provides plenty of storage for anchor, rode and chain.

## Hunter's 33: Yacht Quality in a Midsize Package

Taking its celebrated hull design from the proven running bottoms of its larger 41- and 44-foot sisterships, the Hunter 33 imparts the best in performance without compromising one inch of interior space, resulting in a top-of-the-line midsize cruiser that has it all. The deck features an entertainment-ready cockpit with a drop-leaf table, surrounded by plenty of built-in seating for friends and family.

The helm station provides ample space for instruments, while the optional aft winches are perfect for short-handed sailing.

Greater stability and enhanced interior space are two advantages of the 33's wide beam.

Hunter's innovative walk-through transom makes for a safe and convenient sailing platform.

# Accommodations Galore

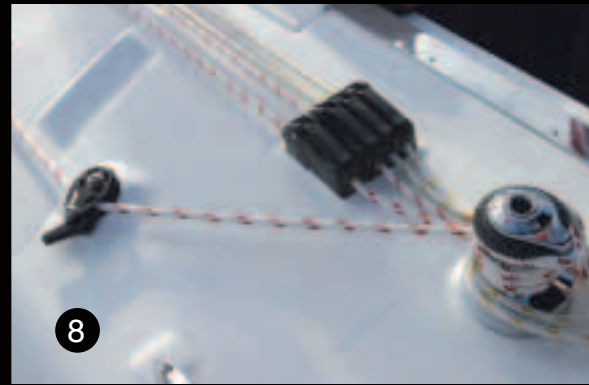

The Hunter 33 is the ultimate cruiser in its size range, featuring world-class accommodations that are second to none. The aft master stateroom features a spacious double berth and abundant storage, while the forward cabin offers privacy for another couple. The U-shaped galley includes a Corian® countertop, two-burner range, icebox and deep sink. The salon offers expansive seating, a drop-down table and a navigation station. An easy-maintenance fiberglass head wraps up the outstanding package.

## Key Highlights

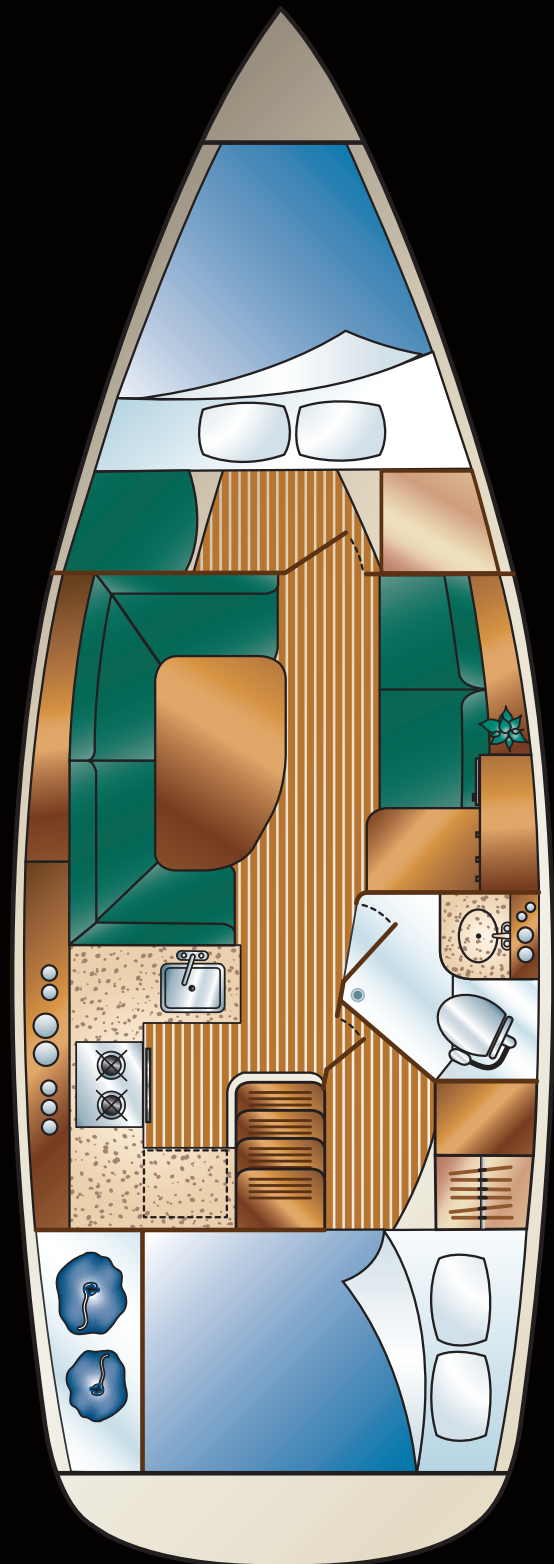

- 1 The forward guest stateroom is perfect for family or friends, providing privacy for all.
- 2 A removable trash bin, large stainless steel sink, two-burner range, microwave and deep icebox are all incorporated in the spacious galley.
- 3 A VHF radio and chart light complete the highly functional nav station.
- 4 The master suite has plenty of headroom, a spacious double berth and excellent ventilation.
- 5 The head with shower has an elegant Corian® countertop and high light fixtures.

- 6 A functionally elegant interior awaits owners of the Hunter 33.
- 7 The standard arch keeps the cockpit clear of the traveler and provides a rigid structure for the bimini.
- 8 Rope clutch blocks keep lines well organized and secure.
- 9 High-quality hardware provides a lifetime of sailing enjoyment.
- 10 Ground tackle is kept clear of the deck within the deep and roomy anchor locker.

# The Hunter 31: A Midsize Cruiser with Mass Appeal

Hunter engineers took full advantage of the latest components when designing the new 31—such as smaller and stronger water heaters, Selden® masts and B&R rigs, and lead keels – creating an amazingly well equipped yet lightweight and fast cruiser. Ergonomics and function were also carefully considered during extensive operational and livability testing. The result is a larger, more comfortable interior with exceptional amenities. Plus, the 31 has all the ease of sailing innovations for which Hunter is famous. This boat is definitely a sum of all its outstanding parts!

When it comes to handling, the 31 offers more room in the cockpit and transom areas than any other boat in her class.

Quality components throughout the 31 make it a fun and durable boat.

With a removable helm seat, the swim platform is easily accessible and extends the cockpit's usable space.

## Optimized for Efficiency and Comfort

Maximum efficiency and comfort has been built into the interior of the Hunter 31. The forward cabin is larger than those in most boats of this class, achieved by adjusting the forward hull shape without affecting performance. A private aft cabin is also provided, along with an enclosed head with vanity and shower. The galley has an icebox, two-burner stove and stainless steel sink. Designer fabrics run throughout, and the interior layout is clean and streamlined.

31

## Key Highlights

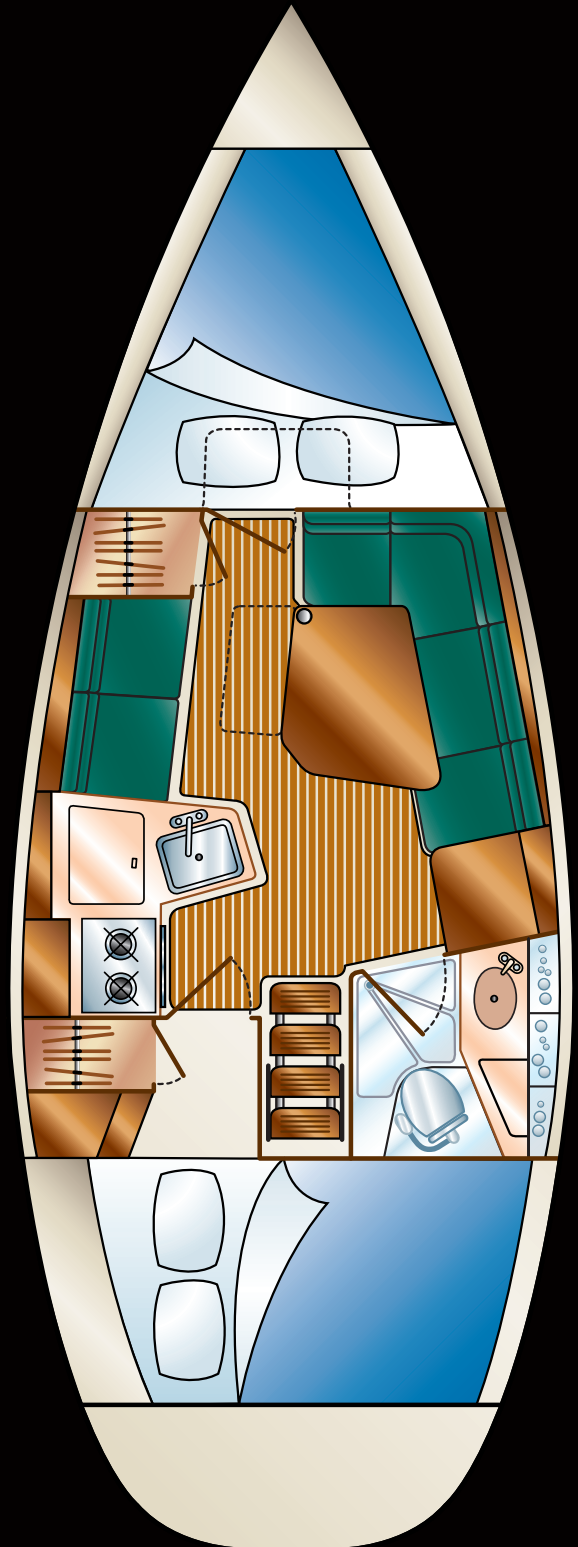

- 1 The forward private cabin offers natural lighting and great ventilation.
- 2 The 31's functional galley with Corian® countertop will please captain and crew alike.
- 3 The aft master stateroom is wide and comfortable, with plenty of storage and privacy.
- 4 Finely-finished teak furniture and the best selection of fabrics make this salon your home away from home.

- 5 The console-style helm pedestal puts electronics at your fingertips.
- 6 The 31 features a full nav station – making plotting your course a breeze.
- 7 The cockpit seating doubles as a hatch for ventilation and light below deck.
- 8 With a stand-up shower and generous storage, the fiberglass head is large and easy to maintain.

# Hunter's 27: An Extraordinary Entry-Level Cruiser

Novice sailors and veterans alike appreciate a boat that is easy to sail, packed with extra value and offers plenty of performance. Hunter's exciting 27 delivers all that and much more, resulting in an exceptional weekend cruiser with all the comforts of home. An impressive interior incorporates a refreshing sense of spaciousness with its large salon and 6'2" headroom. Other interior highlights include almond wood cabinets and bulkheads trimmed in teak, an L-shaped starboard galley, forward V-berth, private aft cabin, plus a fully enclosed head. Versatile sail plan options allow you to maximize your own performance requirements.

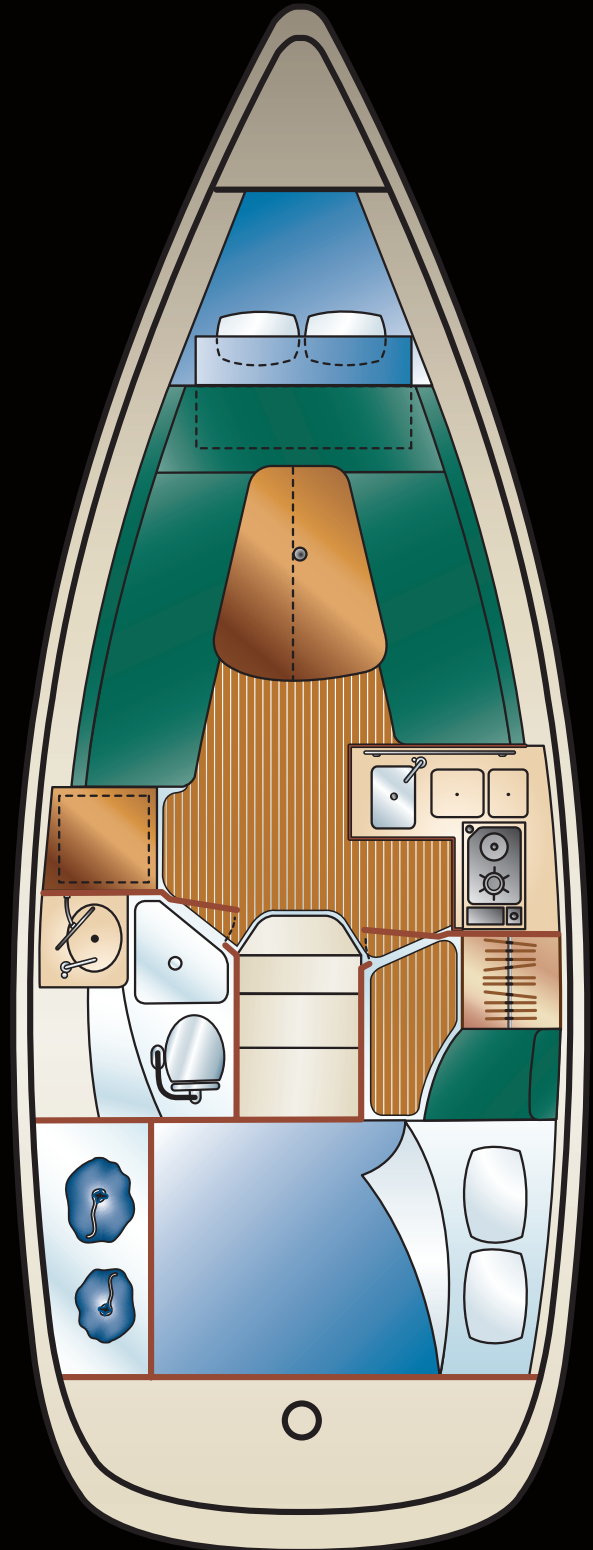

## Key Highlights

- 1 & 6 The surprisingly spacious aft cabin and the main salon with comfortable V-berth allow two couples to enjoy privacy.
- 2 - 4 With self-tailing winches, single-lever throttle control and six-spoke folding wheel, the cockpit is easy to manage.
- 5 Under the sink, a 12-volt cooler/refrigerator makes efficient use of space while allowing perishables to remain fresh.

# Even More Fun: Hunter's Innovative Small Boat Series!

If your sailing adventures include smaller boats as well as cruisers, be sure to check out Hunter's popular line of highly innovative, award-winning daysailers from nine to 25 feet!

With its own fully-dedicated trailerable division and manufacturing facility focusing exclusively on smaller boat design, engineering and production, Hunter builds among the best overall sailboats in this class, offering truly unprecedented value.

Hunter's renowned quality and safety shines through in the Hunter Advanced Composite Process (ACP) product line, the result of the most modern and sophisticated production boat building technology available today. For more information about Hunter's ACP series and its entire trailerable line, visit your authorized Hunter dealer or log on to [huntermarine.com](http://huntermarine.com).
